Attempt to Start a Job Application from a Direct Link (Fails)

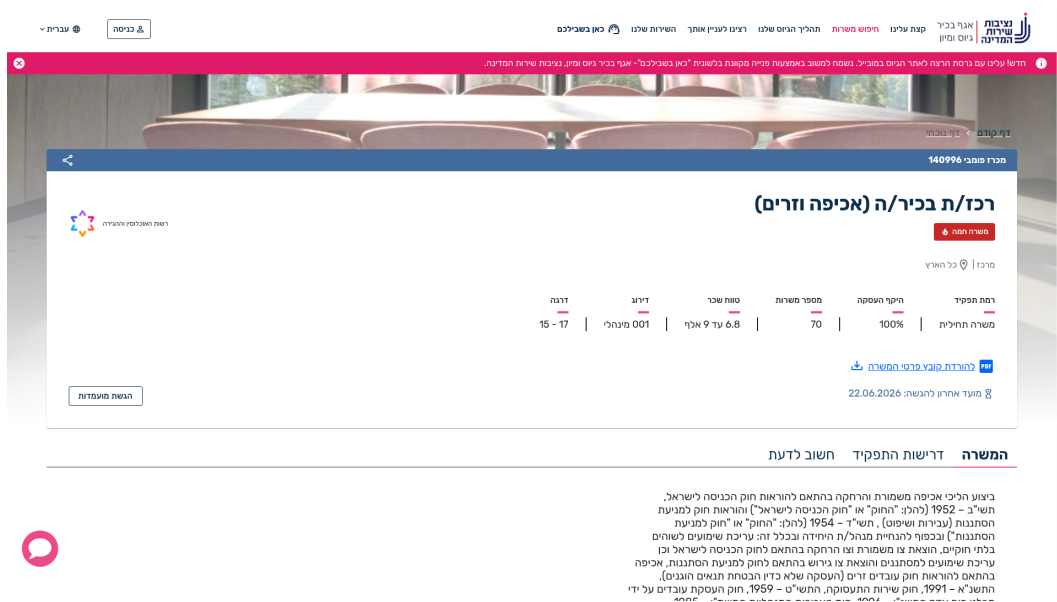

Website: <https://merkava.mrp.gov.il/giusp/index.html#>

Feature Area: Job Application Submission

Goal: A user navigating directly to a job posting should be able to start the application process. The test will verify if the application form loads. Success: The application form loads. Failure: The page times out or shows an error.

Generated: June 11, 2026 at 09:59 AM

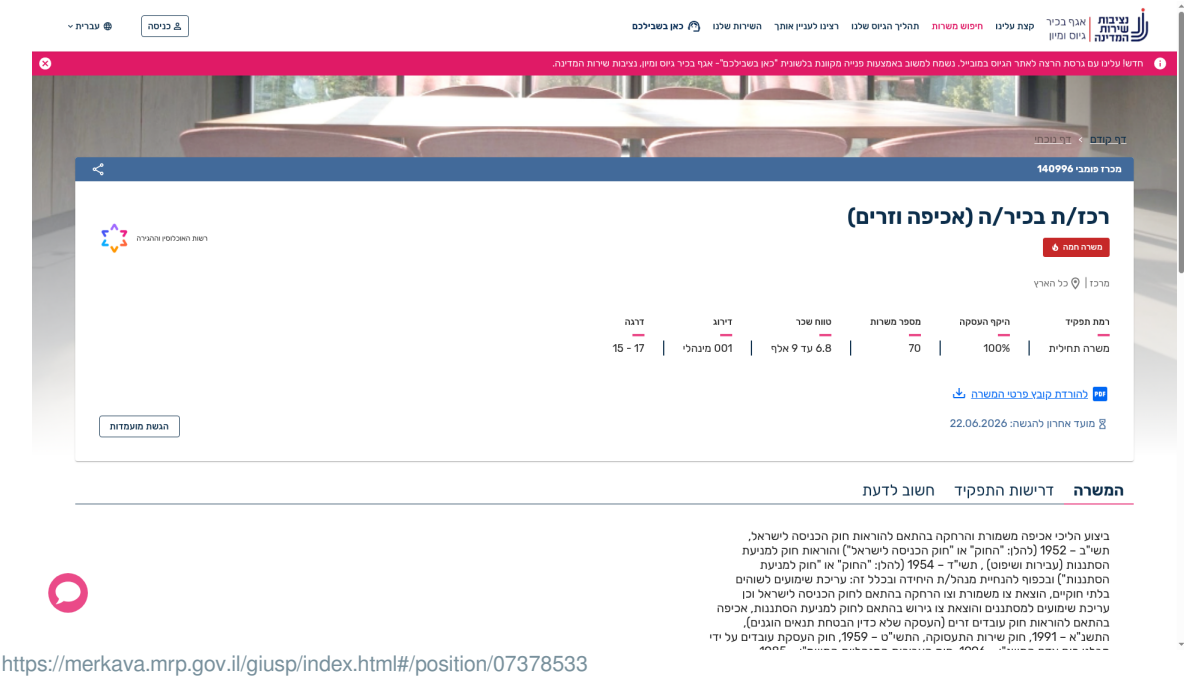

The AI attempted to start a job application by navigating directly to a job posting and clicking the 'Submit Application' button. The test failed as this action consistently caused the page to time out and become blank. This critical issue prevents users from applying for any jobs on the site.

Step-by-Step Walkthrough

1. Job Posting Details Page

The AI navigates directly to a job posting. The subsequent attempt to start the application by clicking the 'Submit Application' button resulted in a page timeout.

Attempt to Start a Job Application from a Direct Link (Fails)

A user navigating directly to a job posting should be able to start the application process. The test will verify if the application form loads. Success: The application form loads. Failure: The page times out or shows an error.

The AI attempted to start a job application by navigating directly to a job posting and clicking the 'Submit Application' button. The test failed as this action consistently caused the page to time out and become blank. This critical issue prevents users from applying for any jobs on the site.

- Navigate to a specific job page, e.g., <https://merkava.mrp.gov.il/giusp/index.html#/position/07378533>
- Click the 'תודמעו תשגה' (Submit Application) button.
- Observe that the page times out and becomes blank, blocking the application process.
